Objective

Final-year BCA student with practical experience in full-stack web development using the MERN stack. I built AksharShelf, a full-featured web reading platform, handling everything from database design to frontend UI. Looking for an internship to grow as a developer and contribute to real projects.

Technical Skills

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, Socket.io, RESTful APIs, (Basic Java, C#)

Tools & Technologies: Git, GitHub, Postman, VS Code

Projects

AksharShelf – Web Reading Platform

[Code](#) | [Live Demo](#)

Tech Stack: React, Node.js, Express.js, MongoDB, Tailwind CSS, JWT

- **Full-Stack Development:** Built a comprehensive web reading platform using the MERN stack featuring book discovery, bookshelf management, and user reviews.
- **User Experience:** Implemented a personalized recommendation system and user profiles with JWT-based authentication for seamless book browsing.
- **Admin Dashboard:** Developed an administrative panel for content management, user management, and platform analytics.
- **Architecture:** Applied structured software development principles with detailed system architecture diagrams, DFD, and algorithm documentation.

Education

Bachelor of Computer Application (BCA)

2022 – Present

Patan Multiple Campus, Tribhuvan University
